

Health and Safety is an extremely important issue for the construction industry. Here at Mastercraft Construction we take it very seriously. Our investment over the years is testament to our commitment to the issue.??

We invest significantly in a wide range of training, new safety initiatives and procedures for all our personnel, There is a “hands on” approach applied to the issue by the Directors, who are assisted by the Health and Safety Administrator, while training needs and requirements are closely monitored by our Training Co-ordinator.

Our aim is to make all our employees and sub-contractors aware of the importance of Health and Safety and ultimately make our sites a safe place to work. We are continually striving to improve our standards in Health and Safety and actively promote excellent Health and Safety standards within the company.

Our commitment to Health and Safety is demonstrated by our Safe-T-Cert and CHAS accreditations as well as our excellent track record.
